ASZ6080-250/S ESD anti-fatigue floor mat

Material: Top layers: PVC; middle Layer: EPDM foamed; bottom layers: NBR/PVC

Using advanced production technology, the surface resistance $10^3-10^5\Omega$, permanently prevent static electricity is

Composite layer structure of an effective cushion foot pressure, alleviate fatigue
The surface with yellow warning side, naturally form anti-static protected areas
Clean and convenient, easy-to-move does not affect the normal working environment
Non-slip surface, acid and alkali resistant, safe to use
Two 10mm buttons in the mat, grounding cord is available to connect
Standard size: 0.45mx0.6mx15mm/17mm
0.6mx0.9mx15mm/17mm
(2layers/3layers)
Standard width: 0.6m, 0.9m, 1.2m. The max width is 1.2m, and the max length is 20m
Standard thickness: 15mm, 17mm
Color: black, yellow and black
